

Product Safety Information

Collecting tray AWA 1000-2 with filling attachment

Please note the technical data of the products!

Article Numbers: 132861, 132860, 132859, 132858, 132857, 132856

Safety Instructions:

- Only suitable for flammable and water-polluting liquids of GHS categories 1-4, do not fill above a maximum of 1000 litres.
- Wear personal protective equipment, e.g. gloves and safety goggles, when handling liquids.
- Ensure that the drip tray is not overfilled or placed on an unstable surface.
- Drip tray not suitable for transporting liquids, can only be used for storage.
- Observe safety precautions and instructions for use to avoid fire and explosion hazards.
- Suitable for the storage of containers (IBCs) with flammable and water-polluting liquids of the GHS categories.
- Observe the maximum load capacity, be careful with weights over 280 kg, especially when lifting.
- Check galvanised surfaces, beware of sharp edges.
- Only allow authorised persons access to the drip tray.
- Regularly check the tray for damage, especially the grating.
- Sufficient distance from heat sources necessary.
