Safety Instructions:

- Ensure that the power strip is installed correctly to avoid the risk of electric shock.
- Do not use the multiple socket outlet in damp or wet environments.
- The socket strip should not be overloaded (max. 16 A / 3500 W).
- Keep the socket strip away from children, even if it has child protection.
- Check the function indicator light regularly to ensure that the overvoltage protection is active.
- If the multiple socket outlet is damaged or overheated, it must be disconnected from the power supply immediately and replaced.
