## LEITZ® Laminating films iLAM, A3/A4, different thicknesses

**Manufacturer/Responsible Person:** Leitz ACCO Brands GmbH & Co. KG, Siemensstraße 64, 70469 Stuttgart, Deutschland

**E-Mail:** germanyinfo@acco.com

Please note the technical data of the products!

**Article Numbers:** 164597, 164596, 164595, 164594, 164593, 164592, 164591, 164590, 164589, 163112

### Safety Instructions:

- Choking hazard due to small parts: Not suitable for children under 3 years and keep out of reach of children.
- Avoid contact of the films with food, as they are not suitable for consumption.
- Follow the manufacturer's instructions for the use of laminating machines to avoid overheating, film jams or fire hazards.
- Only use compatible laminators to minimise damage, overheating and safety risks.
- Avoid contact with sharp objects to prevent damage to the films.
- Keep the laminating films away from heat sources, as high temperatures can lead to melting, deformation or fire hazard.
- Do not store the product at high temperatures or in direct sunlight to avoid material damage.
- Wait until the product has cooled down completely before storing or removing it.
- Ensure that the films are not heated above their maximum temperature to avoid the risk of fire or smoke.
- If the laminating film is damaged, discontinue use to avoid safety risks.
