

Product Safety Information

Bauer type KGW-P small container tray, with or without perforated plate grid, various versions, galvanized steel

Please note the technical data of the products!

Article Numbers: 662869, 662868, 662866, 662865, 133319, 133318, 133317, 133316

Safety Instructions:

- Take care when storing flammable liquids to avoid the risk of fire and explosion.
- Be aware of the risk of suffocation and slipping due to improper storage and leaking liquids.
- Place of use: Only on stable Euro or chemical pallets to ensure stability.
- Maximum density of stored liquids: 1.9 kg/litre.
- Carry out regular inspections for damage and corrosion to ensure storage safety.
- Store only in accordance with the authorised GHS categories (flammable 1-3, hazardous to water 1-4) and in suitable areas for hazardous materials.
- Use personal protective equipment (PPE) when handling hazardous liquids.
- Observe the maximum load capacity of 200 kg to prevent overloading.
- Ensure ventilation if required by using the variant with perforated sheet metal grating.
- Stacking: No more than 30 units on top of each other to ensure stability.
- Avoid storing flammable liquids near heat sources.
- Protect the tub from direct sunlight and strong temperature fluctuations.
- Carry out storage in well-ventilated areas to minimise safety risks.
