Article Numbers: 90939, 90938, 90937

Safety Instructions:

- Avoid excessive load on the stacking box, minimise the risk of breakage.
- Only use for the intended purpose in order to avoid hazards.
- Caution: Edges and corners can be sharp. Risk of injury when handling.
- Ensure that the shelf is stable on conveyor lines to prevent it from falling.
- Do not use above the maximum temperature of +100°C and below the minimum of -20°C to avoid deformation.
- Keep away from strong acids and alkalis to avoid material damage.
- Always stack securely to prevent the stacks from falling over.
- Take care of children and vulnerable people to avoid abuse or injury.
- Do not stack if stability is not guaranteed.
- Only use for contents that are suitable for internal transport or dispatch.
- Before use, ensure that the stacking box is inserted correctly into the shelving system to avoid accidents.
- Avoid use at temperatures above 100°C to prevent deformation.
- Ensure proper handling to prevent injuries.
- Do not overstress the recessed grip to avoid breakage or injury.
