Please note the technical data of the products!

Article Numbers: 90968, 90967, 90966, 90965

Safety Instructions:

- Keep out of the reach of children to avoid injury from suffocation.
- Not suitable for use by children under 3 years of age due to the risk of choking on small parts.
- Avoid using the product near heat sources, hot surfaces or naked flames to prevent material damage or fire hazard.
- Pay attention to sharp edges and risk of injury in the assembly and transport area.
- Do not overload or place excessive loads on the crate to minimise the risk of tipping or breaking and to maintain dimensional stability.
- When stacking, make sure that the crates are stable to avoid the risk of injury from falling.
- Not suitable for use in food storage areas.
- Protect from direct sunlight and extreme temperatures (over 100°C) to prevent material damage.
- Protect from strong chemical substances, as polypropylene is resistant to most acids and alkalis, but can fail under extreme conditions.
- Not suitable for use on storage racks unless explicitly designed for use in conveyor lines.
- Before use, ensure that the stacking box is stacked correctly and as intended to prevent injuries and tipping over.
- When cleaning, remember to use suitable cleaning agents that cannot cause any harmful reactions with polypropylene.
- Product contains no harmful chemicals.
- If the product is damaged, do not use it and dispose of it properly.
