Safety Instructions:

- Anchor the partition stably and evenly to prevent it from tipping over.
- Special instructions on the load-bearing capacity of the partition wall must be observed to prevent capacity overruns.
- Only use correct assembly of all parts to avoid the risk of injury and accidents.
- Guardian of stable and correct use: do not make any significant changes.
- Keep children away from partitions to avoid the risk of falling and injury.
- The partition wall is not suitable for contact with water or moisture in order to avoid material damage.
- Make sure that no sharp or pointed objects damage the partition wall.
- Compliance with manufacturer's instructions for hinges and fasteners is mandatory to ensure structural integrity.
- Clean using the correct method to prevent damage.
- Caution sharp edges: Take protective measures during installation.
- Do not place the partition wall near hot, damp or external environments.
- No use as a play or climbing object, including exclusion of children under 3 years of age.
- Care of unimportant parts to avoid choking hazards for small children.
