

# Product Safety Information

## Aluminium transport trolley, volume 355 - 1050 L, 2 different longitudinal walls, with lid

Please note the technical data of the products!

**Article Numbers:** 150529, 150528, 150527, 150526

### Safety Instructions:

- Before use, ensure that the transport trolley is standing on a stable and level surface and will not roll away. Only use the transport trolley on a level and stable surface.
- Do not exceed the maximum load capacity: 250 kg for 650 litre trolleys and 300 kg for the 1050 litre version. Overloading can lead to injuries.
- Ensure that the folding mechanisms and lowerable side panels are correctly engaged to prevent unintentional folding and slipping. Take care of your fingers to avoid crushing them.
- Wear suitable protective equipment such as safety shoes and protection for hands and other parts of the body when transporting heavy loads.
- Do not push the transport trolley over edges or uneven surfaces to prevent it from tipping over. If used incorrectly, there is a risk of tipping over, especially when fully loaded.
- Special care must be taken when using near water or in damp conditions to avoid the risk of slipping.
- The product could tip over or fall if handled incorrectly, so safe handling should be ensured.
- Safety accessories such as wheel locks should be used when the vehicle is stationary.
- Not suitable for independent use by children. Keep away from children and adult supervision is required.
- The lid must be properly closed to prevent accidents caused by falling.
- Safety information should be provided in a language that is easy to understand.
