Safety Instructions:

- Observe the maximum load capacity of 300 kg to avoid structural damage or tipping over.
- Pay attention to the stability of the table trolley with heavy loads and on uneven floors.
- Do not use the push handle as a leverage point and make sure that the load is evenly distributed.
- The table trolley should be used by children under supervision.
- Do not place excessive loads on the upper loading surface to ensure balance.
- Before use, ensure that the swivel and fixed castors are correctly secured.
- When using the table trolley, make sure that the push handle is suitable for the height at which it is to be stored in order to avoid injuries.
- Weigh the product carefully before transport to avoid overloading.
- Follow the instructions for assembling and using the trolley exactly.
