Safety Instructions:

- Caution: Danger due to improper use when handling heavy loads. Safe handling is required to prevent tipping or slipping.
- Do not overload to avoid structural damage. Please ensure that the box is not overloaded.
- The product is temperature-resistant from -40°C to +60°C. Only store and transport safely within this temperature range.
- Before use, ensure that the box is placed on a stable and secure surface.
- Check the box regularly for cracks or damage to prevent leaks and damage.
- Protect from direct sunlight and extreme weather conditions as well as damp or wet conditions.
- This product is designed for commercial use. Provide suitable instructions for storage and use. Keep out of reach of children to prevent misuse.
- Ensure that the product is only used for the intended liquids to prevent chemical reactions.
- Check conformity with the applicable safety standards and include safety information with the product.
- The boxes are suitable for liquids and must be emptied before they are transported or stored. Avoid unnecessary chemical substances.
- Suitable for liquid and solid materials; not intended for the storage of foodstuffs without prior authorisation.
