Article Numbers: 98601, 98600, 98599, 98598, 98597, 98590, 98589, 98588, 98586, 98584, 98583, 98582, 98581, 98580

Safety Instructions:

- Risk of suffocation and injury due to improper handling, especially when tilted over 90°; locking system can unlock automatically - beware of falling contents.
- Users should keep the key safe and follow the instructions for the locking system to prevent unauthorised access and injuries.
- Do not overload: Observe the maximum filling quantity and the maximum weight of 10.5 kg in order to maintain stability and functionality.
- Keep the dustbin out of the reach of children as there is a risk of suffocation from small parts; not suitable for children under 3 years of age.
- Ensure that the lid is always properly locked to prevent unauthorised opening and access.
- Only open the container with the corresponding key and use the locking system for authorised users only.
- The container should be placed on a level surface and not be tilted to avoid the risk of injury and unintentional unlocking.
- Take care when lifting and moving the bin; indicates a weight of 10.5 kg to minimise risks.
- Do not use near naked flames or children.
- Protect from direct sunlight and extreme weather conditions.
- Caution: The locking system can jam or be damaged if operated incorrectly.
- The container should never be opened or damaged by force.
- Inaccessible to children and not suitable for small children to prevent entrapment and suffocation.
- Use recommended by adults only; follow applicable regulations for waste disposal and separation.
- The use of rubbish bag holder rings is not permitted in order to avoid damage.
