Safety Instructions:

- Keep the product away from fire and hot surfaces as there is a risk of fire.
- Use the product exclusively for the intended purpose of ash storage.
- Ensure that the ashtray is stable to prevent it from tipping over.
- Carry out installation according to the instructions and use suitable plugs and screws to ensure stability and theft protection.
- Keep children away from potential sources of danger in outdoor areas to prevent accidents.
- Do not use the ashtray in strong winds or extreme weather conditions as this can be dangerous.
- Ensure that the ash is disposed of safely to prevent fires.
- Take care when cleaning: Use mild cleaning agents to prevent damage to the powder coating.
- Make sure that the inner container is empty before it is opened to avoid danger.
- The ashtray may become hot to the touch during heavy use, so be careful.
- When emptying residues, ensure that no electrical components are inserted.
- Do not install the product indoors or away from flammable materials.
- Beware of sharp edges during installation to avoid injury.
- Keep the installation materials and keys out of reach and away from children to avoid injury.
- Product is suitable for outdoor use, but should be protected from extreme weather conditions.
- Do not allow the product to overheat and protect it from naked flames to avoid distortion.
- Avoid the risk of suffocation and theft due to improper use.
- Ensure that the materials used in production are free of harmful substances and dispose of the product properly as metal waste.
- Recommendation to use when there is no wind to prevent the ash from cooling down.
