Safety Instructions:

- When installing the safety grilles, use suitable tools and wear suitable protective equipment (gloves, safety goggles) to avoid injury.
- Safety gates are unstable if used incorrectly and can fall over; not suitable for children as play equipment (danger of falling over or falling down).
- Regularly check the stability and integrity of the grilles; damaged parts must be replaced immediately.
- Use only on firm ground, not on uneven terrain. Ensure that the grid is stable and securely anchored in the concrete.
- Caution: Risk of injury from sharp edges or corners.
- Ensure sufficient visibility (colour: white/red) to avoid accidents.
