## Tipping container type BK 30

Please note the technical data of the products!

**Article Numbers:** 73182, 73181, 73180, 73179, 73014, 73007

### Safety Instructions:

- Only use tipping containers with a suitable forklift truck and check the entry protection before use.
- Do not exceed the maximum load capacity of 750 kg and weight of 163 kg. Ensure that the load is safe.
- Check the tilting mechanism and safety devices (e.g. anti-slip device) for functionality and damage before use. In the event of faults, stop operation and consult a specialist.
- Before use, ensure that the forklift truck is serviced and in good condition. Attach the tipping container correctly and securely.
- Ensure that no persons are in the danger zone of the tilting process. Keep the surrounding area free of obstacles.
- Only trained personnel may operate the tipping container. Carry out a risk assessment of the operating environment.
- Only carry out tipping operations on firm and level ground. Only use with oil presses or hazardous materials if intended.
- Wear protective clothing and personal protective equipment when using the product.
- Protect electrical components from moisture.
- All users must be instructed to operate the operating rope only when seated. Do not leave any part of the body in the danger zone of the operating rope.
- Read and observe the manufacturer's operating instructions before use.
- Only use under supervision to minimise the risk of operating errors.
