

Product Safety Information

Tipping container type BK 200

Please note the technical data of the products!

Article Numbers: 73403, 73402, 73401, 73400, 73020, 73013

Safety Instructions:

- Secure the tipping container during and after use to prevent it from tipping over or falling.
- Do not exceed the maximum load capacity of the tipping container of 2000 kg; avoid overloading.
- The tipping process may only be carried out by authorised and trained personnel.
- Keep yourself and other persons safely away from the danger zone during the tilting process.
- Only use the tipping container in conjunction with a suitable forklift truck and check that the container is properly docked and mounted.
- Ensure that the container is only tipped in stable locations and that the roll-off mechanisms are working properly.
- Wear suitable protective clothing and safety equipment such as safety shoes and gloves.
- Check and maintain the tipping container regularly for damage or wear and tear and, in the event of malfunctions, take it out of operation temporarily.
- Read and follow the manufacturer's operating instructions and safety instructions before use.
- Comply with all safety regulations to avoid accidents and damage to property.
- Use only for the intended purpose and never overload the forklift truck.
