E-Mail: verkauf@krieg-online.de

Please note the technical data of the products!

Article Numbers: 51819, 51818, 51817

Safety Instructions:

- Ensure that the product is placed on a stable, level surface to prevent it from tipping over.
- Only move the wheelchair on smooth, firm surfaces and lock the castors correctly to minimise the risk of tipping over.
- Before use, ensure that all bolts and screws are firmly tightened.
- Do not exceed the load capacity of the castors: maximum 70 kg with a castor diameter of 850 mm and 120 kg with a castor diameter of 450 mm. Observe the maximum load capacity of the castors to avoid overloading.
- If necessary, make the castors lockable to ensure stability during use.
- Lift the cutting stand during transport to prevent damage to the castors or the floor.
- When cutting, use the protective devices and replaceable blades included in the scope of delivery to avoid injury.
- Always hold the operating handle firmly when cutting for better control.
- The cutting stand is not suitable for children as it contains sharp blades.
- There is a risk of collision when moving the cutting stand.
