Safety Instructions:

- Check the product thoroughly for damage before use.
- Do not overload the briefcase to avoid tearing the seams and ensure that it is not subjected to excessive stress.
- Check the zip regularly for functionality and avoid sharp objects and heavy pressure on it to prevent jamming or damage.
- When carrying the bag, make sure you adopt an ergonomically correct posture to avoid back pain.
- Keep the briefcase away from water and extreme temperatures to prevent material damage.
- Before use, check the quality of the metal locks to ensure that they function properly.
- Only use the detachable shoulder strap under supervision, especially when used by children.
- If there are signs of wear or damage, stop using the product immediately and replace it if necessary.
