### Safety Instructions:

- The product is not intended for use by children, but should always be kept out of reach of curious children.
- All moving parts must be securely mounted, especially when operating the foot pedal, to prevent injuries such as crushing or punching hazards.
- Maximum load capacity: 120 litres. Use the bag stand accordingly to prevent tipping or overloading.
- The waste bag rack should be cleaned regularly and checked for damage to ensure hygienic conditions and stability.
- When used in areas with children, castors should be equipped with a safety mechanism to minimise risks.
- To avoid the risk of falling, the standing area of the waste bag stand should be kept free of obstacles and the stand should only be used on stable, level surfaces.
- Special hygiene precautions are required for use in areas with medical waste or special environments such as kitchens and care facilities.
- The waste bag closure should not be damaged when changing to ensure hygienic handling.
- Waste should be disposed of in accordance with local regulations.
- Do not use outdoors to avoid environmental influences.
- Regular maintenance and inspection of the castors is essential to ensure safety and functionality. Avoid excessive load on the castors to prevent damage.
