Safety Instructions:

- Product not suitable for children under 3 years of age, choking hazard due to small parts. Keep out of reach of children to avoid risk of injury.
- Before assembly, check that all parts are present and that there is no visible damage. Before use and before each assembly, ensure that all parts are securely fitted and that there is no damage.
- Test the stability of the bike rack before use. Take care not to overload the product or use it with more than the maximum permitted number of bikes in order to avoid stability risks.
- Use the product in accordance with the assembly instructions and ensure that it is correctly assembled to avoid injury. During assembly, ensure that all parts are firmly tightened.
- Before installation, check the stability of the ground to avoid tipping or turning. The U-frame parker should be located in a place protected from extreme weather conditions.
- Only use for bikes with a maximum tyre width of 55 mm. When using, make sure that the bikes are positioned correctly in the brackets to prevent them from falling over or being damaged.
- Carry out regular inspections for rust, damage or wear. If damaged, discontinue use and contact the manufacturer.
- Use of the product is at your own risk and the warranty conditions should be observed.
- Use suitable tools for installation.
