Safety Instructions:

- Consolidated Note: Install securely on a stable, level surface to ensure stability and safety and to prevent accidents.
- Consolidated note: Do not pull or push the product with excessive force. If the product is damaged, stop using it immediately and contact the manufacturer.
- Consolidated Note: Carry out regular inspections and maintenance to ensure longevity and safety; check the structure and adjustment points for signs of corrosion, damage or wear.
- Consolidated note: Use the product only in the intended frame and for the intended purpose in order to avoid overloading and safety risks; product not suitable for widths over 55 mm and not suitable for use by children.
- Consolidated note: Ensure that bicycles are securely placed and fixed in parking bays to prevent overturning, falling or slipping; provide warning notices.
- Consolidated note: Take care during use, especially with sharp edges of the hanger parker and the risk of falling if used incorrectly.
- Consolidated note: Observe safety measures during transport to avoid injuries.
