### Safety Instructions:

- Ensure that the electronic lock complies with safety standards and is installed and used in accordance with the manufacturer's instructions.
- The key box is intended for use in closed rooms.
- Do not overload the hook or electronic lock to avoid damage and safety risks.
- Safety information and instructions for use must accompany the product.
- The electronic lock may react incorrectly if used improperly.
- Store keys and codes securely to prevent unauthorised access.
- If there are any signs of damage or malfunction, stop using the product and contact the manufacturer.
- Keep the product out of the reach of children to avoid misuse and possible dangers.
- Avoid using force or excessive force when opening the cabinet to prevent damage.
- Ensure that the instructions provided are followed when installing the key cabinet to ensure safe use.
- Before installation, ensure that all parts are complete and undamaged in order to minimise safety risks.
- Keep children away from the use of and access to safety mechanisms to avoid injury.
- Always ensure that the user and manager codes are entered correctly to prevent unauthorised access.
