Article Numbers: 24376, 24348, 24319

Safety Instructions:

- Do not set up or install the product improperly to prevent it from falling over.
- Take care when using the electronic lock to avoid accidentally locking keys. Always check access to the electronic lock, especially in households with children.
- Strong, stable design, but ensure that the product is secured against unauthorised access. Ensure that the product has been designed and manufactured in accordance with the general safety requirements.
- Choking hazard due to improper handling of small parts.
- Risk of electric shock due to improper use of the electronic lock. Comply with the technical safety specifications for electrically operated devices to avoid the risk of electric shock.
- Keep the key cabinet out of the reach of children. Do not use by children without adult supervision as the product does not contain any specific safety precautions for children.
- Ensure that the key cabinet is properly installed to avoid injury.
- Provision of clear operating instructions containing safety information.
- Monitoring of products on the market for potential safety problems and timely notification to consumers in the event of risks.
