### Safety Instructions:

- Product is intended for safe use only in accordance with the manufacturer's instructions.
- Always keep the lock closed to prevent unauthorised access.
- Check safety devices regularly for proper functioning.
- The product may pose a safety risk if used improperly.
- The product may only be operated by adults.
- The weight of the product requires special care during transport.
- If the key or lock equipment is damaged, take the product out of operation immediately and contact the manufacturer.
- Secure the safe using the standard floor anchoring to prevent it from tipping over.
- Use the double-bit high security lock to prevent unauthorised access to the contents.
- Keep a close eye on the safe door during use to prevent injuries caused by door movements.
- The maximum load of the safe is 154 kg. Take care not to overload it.
- Avoid placing the safe in areas with high humidity to prevent corrosion.
- When transporting heavy goods, use suitable aids to prevent injuries.
