Safety Instructions:

- The product must be properly anchored to prevent it from tipping over; sufficient stability is required during installation.
- The cabinet should only be used for its intended purpose and should not be overloaded to avoid damage and loss of stability.
- The heavy weight of the product (185 kg) requires appropriate handling and support by several people during transport.
- Mechanical and thermal anti-burglary devices must not be impaired by improper use.
- Safety measures should be observed to avoid accidents when handling the cabinet.
- Keep the key in a safe place after use.
