Safety Instructions:

- Avoid lifting weights above the specified load capacity of 2300 kg.
- Ensure that the appliance is used on a level surface to prevent it from tipping over.
- The equipment should be serviced and lubricated regularly to ensure a long service life.
- Please observe the manufacturer's safety instructions and operating instructions.
- To avoid injury, do not handle products that are heavier than the specified load capacity.
- Avoid overloading the pallet truck. Maximum load capacity: 2300 kg.
- Do not allow anyone to stand under raised loads.
- After use, ensure that the pallet truck is in the lowered position.
- Use only by trained personnel.
- Risk of suffocation due to improper use of the pallet truck caused by incorrect handling or overloading.
- Risk of injury due to improper operation, especially in the event of overloading.
