Please note the technical data of the products!

Article Numbers: 77317, 77287, 77286

Safety Instructions:

- Ensure that the pallet truck is correctly assembled and maintained to maximise its service life and ensure safety.
- Pay attention to the maximum load capacity: 2000 kg or 2300 kg depending on the model and to avoid overloading and improper use.
- For safe operation, use only by trained personnel and wear suitable protective equipment, especially when handling heavy loads.
- Only operate the pallet truck on stable and level surfaces to prevent it from tipping over or slipping.
- Avoid collisions with persons or other devices during operation.
- Check the overload valve and the rollers regularly to prevent incorrect operation and wear.
- Keep the work area free of obstacles to avoid tripping.
- If damaged, take out of service immediately and contact the service centre.
