Article Numbers: 77318, 77289, 77288

Safety Instructions:

- Use only by trained personnel or train the operating personnel in the safe handling of the pallet truck.
- Caution! Note the risk of overloading: Do not exceed the maximum load capacity of 2000 kg.
- Do not overload the pallet truck beyond the specified maximum load capacity of 2300 kg.
- Avoid risk of injury due to improper use or operating errors.
- Suitable for use on level surfaces, do not use on uneven or unstable surfaces.
- Ensure that the product is used on a flat surface to prevent capsizing.
- For maintenance and lubrication, check regularly to prevent damage or malfunctions.
- Ensure that the fork is raised and lowered correctly during use to prevent the load from dropping unexpectedly.
- Always wear suitable protective equipment, including safety shoes, when handling loads.
- Keep the work area free of obstacles to avoid the risk of tripping and falling.
- Regularly check the brakes and the general functionality of the pallet truck.
- Take care in wet conditions to avoid slipping and falling.
- Check protective devices such as the overload valve regularly.
