

Product Safety Information

Pallet truck, lifter, VG/PU, without Quick-Lift, single

Manufacturer/Responsible Person: Toyota Material Handling Deutschland GmbH, Hannoversche Straße 113, 30916 Isernhagen, Deutschland
E-Mail: info@de.toyota-industries.eu

Please note the technical data of the products!

Article Numbers: 77319, 77291, 77290

Safety Instructions:

- Before commissioning, ensure that the pallet truck is fully assembled and that all parts are in perfect condition.
- Provide accessible operating instructions and safety information in understandable language and read them carefully.
- Do not exceed the maximum load capacity: 2000 kg or 2300 kg to avoid overload damage.
- Carry out regular maintenance on the pallet truck to ensure proper function and pay attention to wearing parts. Observe safety precautions during maintenance work.
- Use the appliance on a firm, dry and level surface to avoid accidents and wobbling.
- Clearly communicate instructions for unsafe use (e.g. overloading, inaccurate handling) to prevent injury and damage.
- Take care when handling heavy loads: People must not be in the working area to avoid injury.
- Wear protective clothing and safety shoes when using the machine.
- Check the appliance regularly for damage and functionality and observe the overload valve.
