Safety Instructions:

- Only allow trained personnel to operate the appliance.
- Always check for damage before use.
- Do not exceed the permissible load capacity. (Maximum 2300 kg or 2000 kg, depending on the model)
- Only drive carefully on uneven ground or avoid use if no suitable measures are taken.
- In wet conditions, take non-slip measures, such as using non-slip shoes and ensuring that castors do not slip.
- Ensure regular maintenance and lubrication of the bearings and regularly check and maintain the overload valve.
- The overload valve is automatically activated in the event of an overload to prevent hazards.
- Follow the operating instructions and ensure that all safety precautions are taken.
- Do not stand or sit on forks to avoid injury.
- Wear protective clothing, especially gloves and sturdy shoes.
- Do not raise the fork above the maximum lifting height.
