Article Numbers: 77323, 77299, 77298

Safety Instructions:

- Do not use in the event of accidents.
- Do not exceed the maximum load capacity of 2300 kg, but note that the reduced load capacity is 2000 kg to avoid accidents.
- Only use on level floors to avoid tipping and castors must be undamaged.
- Check the overload valve regularly for proper functioning and use it to prevent overloading.
- Use only by trained personnel and wear suitable personal protective equipment such as safety shoes.
- Keep hands and feet away from the fork area during use.
- Risk of suffocation due to improper use, especially if the permissible load capacity is exceeded.
- Risk of injury due to improper operation or incorrect handling of the pallet truck.
- Instructions for use and safety information must be provided.
- Regular maintenance and lubrication are necessary for safety and longevity.
- Ensure that the pallet truck has been correctly maintained before use.
