Safety Instructions:

- Read the user manual before use and follow the instructions.
- Do not exceed the permissible load capacity of 2300 kg to avoid overloading.
- Overload prevention: Use the overload valve to prevent damage.
- Ensure safe storage and handling to minimise the risk of accidents.
- Regularly check the swivel castors for wear to prevent the risk of losing control.
- Ensure that the grease nipples are properly maintained to guarantee a long service life.
- During transport, ensure that the floor is level to avoid the risk of tipping.
- Wear protective clothing to avoid injury during handling.
- Wear appropriate protective equipment when lifting loads to avoid injury.
- Do not use pallet trucks on uneven terrain or inclines.
- Maintain the appliance regularly to ensure safety and functionality.
