Safety Instructions:

- Read the operating instructions carefully before use.
- Maximum load capacity: 2300 kg must not be exceeded.
- Regularly check the functionality of the overload valve.
- Product is not suitable for use in extreme conditions, especially in wet conditions.
- Only use the pallet truck on level, non-slip surfaces.
- Take care in wet conditions: castors can become slippery.
- Use personal protective equipment such as safety shoes.
- Only trained personnel may operate the appliance.
- Use the pallet truck in accordance with the manufacturer's instructions.
- Do not overload the pallet truck beyond the maximum rated load capacity.
- Regularly check the condition of the castors and forks for wear.
- Keep the area clear of obstacles to avoid accidents.
- Ensure that nobody is standing near moving parts.
- Follow the labelling and instructions for safe operation.
- Ensure that the pallet truck has been serviced before use.
- Dispose of the product sustainably in accordance with local regulations.
