Article Numbers: 77309, 77308

Safety Instructions:

- Do not exceed the maximum load capacity. Nominal load: 2300 kg, reduced nominal load capacity: 2000 kg. When transporting heavy loads, ensure that the maximum rated load of 2000 kg is not exceeded.
- Drive carefully on uneven ground and thresholds to avoid tipping over. Ensure that the pallet truck is used on firm, level ground.
- Do not lift the appliance above the maximum lifting height of 200 mm.
- Ensure safe use in accordance with the technical specifications. Instruct users on correct handling to avoid injury. Only use the pallet truck in accordance with the instructions in the operating instructions.
- Regularly check the condition of the swivel castors and tandem castors for wear.
- Avoid standing behind the pallet truck during operation.
- The pallet truck should not be operated on ramps or steep terrain.
- Use the overload protection and ensure that it is working properly.
- Secure the loads properly to prevent the pallet truck from tipping over.
