Safety Instructions:

- Do not exceed the maximum load capacity of 2000 kg.
- Only allow trained personnel to operate the appliance.
- Use with caution on uneven floors; do not use on unstable surfaces.
- Ensure regular maintenance and inspection of the grease nipples and the overload valve.
- Risk of slipping in wet conditions; use rubber castors deliberately.
- Place the appliance on firm ground and check for damage.
- Read the operating instructions carefully and follow them.
- Check that the set torque is correct to avoid overloading.
- Wear personal protective equipment such as safety shoes.
- Use finger guards and other protective devices to prevent injuries.
