Safety Instructions:

- Read the operating instructions before use.
- Do not exceed the maximum load capacity (2300 kg / 2000 kg). Overloading the appliance can lead to dangerous situations; do not exceed the maximum permissible load of 2300 kg.
- Drive carefully on uneven ground/avoid risk of tripping; only use on level ground if possible.
- Caution: Be aware of the risk of the rubber castors slipping in wet conditions.
- The overload valve must always be functional.
- Take special care for people with disabilities.
- Carry out regular maintenance and lubrication in accordance with the specifications or grease nipple requirements to ensure the service life and safety of the product.
- Ensure that there are no children in the vicinity of the work area.
- Risk of suffocation due to improper handling, especially when using the pallet truck in the vicinity of people.
- Risk of crushing if used or operated incorrectly; ensure that fingers and other parts of the body do not get caught between the pallet truck and other objects.
