Safety Instructions:

- Before use, ensure that the maximum load capacity of 2500 kg is not exceeded in order to avoid injuries.
- Before use, ensure that the maximum load capacity of 2000 kg is not exceeded.
- Only use the product on a firm, level surface to prevent it from tipping over.
- Product not suitable for use on inclines or uneven terrain.
- Avoid overloading the pallet truck to prevent damage.
- There is a risk of injury if the appliance is used incorrectly. Read the operating instructions carefully.
- Ensure that all users are familiar with the operation of the pallet truck before use and keep hands and feet away from the fork and moving parts.
- Ensure that the product is regularly checked for functionality and safety and that the condition of the castors and load rollers is checked to prevent accidents.
- Observe the maintenance and care instructions for the pallet truck to extend its service life.
- Appropriate training is required to operate the pallet truck.
