Safety Instructions:

- Read the instructions and safety information carefully before using the pallet truck.
- Do not exceed the maximum load capacity of 2500 kg to avoid overloading and tipping over.
- Avoid lifting loads that are not securely placed on the fork.
- Wear suitable personal protective equipment (PPE), including sturdy footwear, to prevent injuries, especially crushing injuries.
- Carry out regular maintenance and inspection of the hydraulic unit and rollers to prevent malfunctions.
- Ensure that the work area is free of obstacles to avoid accidents.
- The pallet truck is not intended for use by children and should be kept out of their reach.
- Ensure that the pallet truck is used on a stable and level surface.
- Complete training for the proper use and handling of the pallet truck.
- Ensure that the product is correctly installed before use.
