Safety Instructions:

- Caution: High load capacity of up to 2500 kg. Observe the load capacity limit to avoid injuries.
- Operate machines safely in accordance with the applicable guidelines.
- Wear protective clothing to avoid injuries (e.g. safety shoes).
- Check before use to avoid the risk of irregularities or damage.
- Users should receive training on safe handling.
- Only use pallet trucks on stable and level surfaces.
- Check the condition of the swivel castors and load castors before each use.
- Keep away from moving parts while the pallet truck is in operation.
- Carry out regular maintenance to ensure safety and longevity.
- Keep the pallet truck away from children.
