Safety Instructions:

- Read the operating manual carefully before use.
- Do not exceed the maximum load capacity of 2500 kg.
- Users must take care to use the pallet trucks only on a stable and level surface and exercise caution when using them on steep slopes or uneven floors.
- Ensure that no persons are standing in the danger zone while the appliance is being operated.
- Wear protective clothing, especially when handling heavy loads, including safety shoes and suitable protective gloves.
- Do not use if damaged and contact the manufacturer.
- Ensure that the product is only operated by trained personnel.
- Carry out regular maintenance and inspections in accordance with the manufacturer's instructions.
- Ensure that loads are evenly distributed to prevent tipping.
- Do not overload pallet trucks to avoid accidents.
- Take particular care on slippery surfaces.
