Safety Instructions:

- Not suitable for liquids. Only use for transporting dry materials.
- Ensure that the container does not crack at low temperatures (-40°C) and protect it from extreme temperatures (-40°C to +80°C).
- For the external dimensions with wheels, any placement requirements must be taken into account.
- Ensure that the container is stable when full to prevent it from tipping over. Take care when using on uneven surfaces.
- Intended for the transport of granulates and powders.
- Keep away from children to avoid injury or improper use. The product is not suitable for use by children.
- Regularly check the stability and safety mechanisms when used with heavy contents.
- Protect from impact and damage. There is a risk of material damage or breakage if handled incorrectly.
- Ensure safe handling with suitable carrying handles.
