Safety Instructions:

- Not suitable for liquids!
- Make sure that the container is not overloaded or overloaded to avoid tipping or the risk of breakage.
- Take care when using on uneven surfaces to avoid tipping over. Always place the appliance on a stable and firm surface.
- Avoid sharp objects that could damage the container.
- Ensure that the container is correctly tilted before moving it.
- Use taking into account the temperature resistance from -40 °C to +80 °C. High temperatures above +80°C can damage the material, low temperatures below -40°C can make the material brittle.
- Avoid using the container in extreme temperatures outside the specified limits.
- When using with heavy loads, use suitable lifting or transport aids. Follow the lifting and transport instructions for safe handling.
- Small children should be kept away from the container to avoid accidents.
- Contained small parts can cause a choking hazard. Protection against choking hazard due to improper use.
- Reinforcement with plywood panel - possible risk of injury if handled improperly.
