Safety Instructions:

- The office chair must be designed and manufactured in accordance with the safety standards for furniture products.
- Only use the product as intended to avoid the risk of injury.
- Regularly check the stability and functionality of the chair, especially the height-adjustable mechanism.
- Be careful when adjusting the chair mechanism to avoid injury.
- Use the chair on a level surface to prevent accidents.
- Do not exceed the maximum load of 110 kg to avoid the risk of collapse.
- Adjust the armrests so that they provide comfort without restricting freedom of movement.
- Ensure an ergonomic sitting position to avoid back problems.
- Ensure that the office chair is properly assembled to avoid injury.
- Do not use the office chair for more than the recommended sitting time of 8 hours to avoid health problems.
- Do not drag the chair across sensitive floors to avoid damage.
- Only use approved cleaning agents for cleaning the fabric cover to avoid damage.
- Check the height adjustment regularly and adjust it correctly to ensure an ergonomic sitting position.
- Do not position the chair near heat sources or in direct sunlight to avoid damaging the material.
