Safety Instructions:

- Only use the runner on dry, non-slip surfaces to avoid the risk of slipping and falling.
- Make sure that the runner is laid correctly and rests completely on the floor to avoid tripping hazards.
- The runner is not suitable for liquid chemicals or flammable materials.
- Make sure to clean the runner regularly, especially in high-traffic areas, and carry out regular inspections to detect wear or damage.
- The product is designed for professional use. All users should be informed about the correct use. Regular inspection for wear and damage is recommended.
- Do not use the runner in areas with extreme temperatures, direct sunlight, open flames or areas with an increased risk of slipping.
- The black/yellow version is used to mark danger points and offers ergonomic benefits to minimise fatigue when standing for long periods.
