E-Mail: info@schaefer-shop.de

Please note the technical data of the products!

Article Numbers: 27498, 27478

Safety Instructions:

- Make sure that the clothes locker is mounted stably and securely to prevent it from tipping over and note that the product must be positioned stably due to its weight (47 kg).
- Only use padlocks with a shackle thickness of 5-7 mm for the rotary bolt lock and ensure that the rotary bolt lock functions properly and is tested before use.
- Check that the towel rail is securely fastened to the inside of the door to prevent it from falling.
- Keep small parts such as coat hooks away from small children to avoid the risk of suffocation.
- Ensure that all ventilation slots remain unobstructed to ensure air circulation and prevent mould growth.
- Regularly check the hat shelves and clothes rails for strength and stability.
