Safety Instructions:

- Ensure that the product is stable and on a level surface to prevent it from tipping over.
- Make sure that the cabinet is stable and cannot tip over, especially if it is used improperly.
- Children should not be left unattended near the product to avoid injury from small parts or tipping.
- The product is not suitable for children under 3 years of age due to choking hazard from small parts.
- Use the safety twist-lock latches in accordance with the instructions to prevent unauthorised access and accidents.
- Only use padlocks with a shackle thickness of 5-7 mm for the security twist lock.
- There is a risk of injury if assembled incorrectly; follow the correct instructions when assembling.
- Avoid overloading to minimise the risk of injury and structural damage. Maximum load 77 kg.
- The bench area should only be used by up to two people to avoid overloading and tipping over.
- The wardrobe may only be used in accordance with the instructions in order to prevent injuries caused by improper use.
- Ensure that heavy objects are not placed on the bench seat or the box doors and could cause the product to tip over.
- The clothes locker is intended for indoor use and should not be used outdoors.
- Ensure that doors remain closed during use to avoid injury.
- Manufacture from stove-enamelled sheet steel may have sharp edges; beware of injuries during assembly and use.
- Height-adjustable feet must be set correctly to guarantee stability and safety.
- The ventilation slots should be checked regularly to ensure hygiene.
- Clean the floor regularly to avoid accidents caused by slipping.
