Safety Instructions:

- Choking hazard due to swallowing small parts. Do not use the product in the vicinity of children; it is not suitable for children.
- Risk of injury due to improper handling of mechanical parts or clamping functions. Ensure that no hands or other parts of the body are in the working area of the appliance during operation. Take care when handling the hand lever and clamps. Wear gloves to avoid skin injuries from sharp parts.
- Risk of injury due to improper use under compressed air conditions: Use only by trained personnel. When working with compressed air, ensure that the air pressure is between 5-6 bar before use, without exceeding 8 bar, and remove the connection after use to prevent accidental activation.
- The product may only be used in accordance with the manufacturer's instructions for the intended purpose in order to ensure safety.
- Store packaging units safely to prevent damage and accidents.
