Safety Instructions:

- Maximum load per drawer: 15 kg. Avoid overloading to prevent damage.
- Avoid tipping the mobile container, especially if the load is uneven. Ensure that it is standing on a stable, level surface.
- The mobile container is not suitable for children under 3 years of age and should not be left unattended in the vicinity of small children to avoid the risk of choking on small parts.
- Regularly check the functionality of the lock and castors. If necessary, use the lockable castors to prevent unintentional rolling away.
- Caution: Drawers can come loose or fall out if handled incorrectly. Open and close carefully. Keep loose jewellery and clothing away to avoid injury.
- The mobile pedestal is not suitable for outdoor use and should be protected from moisture. The castors are designed for indoor use.
- Only install using suitable tools and in accordance with the instructions. Keep the tilt key out of the reach of children. Only allow access to keys for authorised persons.
- Children should never play with the mobile pedestal. Caution: There is a risk of entrapment if the drawers and pull-outs are used incorrectly.
- Ensure that the mobile pedestal is placed on a stable and suitable surface. When using the castors, check that the surface is suitable to prevent damage.
