### Safety Instructions:

- Beware of crushing hazard due to moving parts.
- The edges of the product may be sharp; be careful when handling.
- Additional safety measures are required if the container is used in the vicinity of children.
- Keep children away from the mobile pedestal to avoid accidents caused by tipping or crushing. The mobile pedestal is not suitable for use by children.
- Make sure that the mobile pedestal is placed on a stable, level surface to prevent it from tipping over.
- Use the lockable castors to secure the mobile pedestal in a safe place and prevent it from rolling away. Check the lockability regularly.
- Do not overload the drawers beyond the recommended maximum load capacity of 15 kg per drawer.
- Ensure that drawers are inserted correctly to prevent injury when pulling them out.
- Keep the mobile pedestal away from sources of heat and direct sunlight to prevent damage to the material.
- There is a risk of injury in the event of improper installation or use.
- Use under adult supervision recommended.
- Warning: Do not use as a toy.
