Safety Instructions:

- Only use the mobile pedestal on level surfaces to prevent it from tipping or falling over.
- Avoid overloading the drawers beyond the specified maximum load capacity of 25 kg per drawer.
- To avoid injury, always close the drawers completely before moving the container.
- Make sure that the castors are locked when not in use to prevent them from rolling away unintentionally.
- The castors can cause damage to floors if used improperly, so the surface should be suitable.
- Check the castors regularly for proper function and maintain them for safe movement.
- Keep the area around the mobile pedestal clear to prevent falls and accidents.
- The product is not to be used as a toy and should be stored out of the reach of children.
- Avoid using materials that are not intended for use in the drawers to prevent safety risks.
- Use the soft-close mechanism carefully to avoid jamming.
- Ensure that the product is on a stable, level surface before moving it.
- When using the lock, take care not to leave the key in the lock to ensure security.
- Proceed correctly when assembling and setting up the mobile container to prevent it from tipping over.
- Make sure that the mobile pedestal is positioned close to power sockets to avoid tripping hazards caused by cables.
