Safety Instructions:

- Keep small parts and heavy objects out of the reach of children.
- Ensure that the mobile pedestal is placed on a stable, level surface to prevent it from tipping over.
- Use the lockable castors to secure the position of the container. Ensure that the brakes are fully activated.
- Before use, check that all drawers are working properly to avoid injury.
- Avoid overloading the drawers. The maximum load capacity per drawer is 15 kg.
- Caution: Risk of injury from sharp edges and corners.
- For safe use of the lock, the enclosed instructions must be observed to prevent unauthorised access.
- The castors should be checked regularly for functionality to avoid the risk of falling.
- The mobile pedestal is recommended for indoor use, protect from direct sunlight, moisture and in the vicinity of water or wet surfaces.
- Do not open or close drawers abruptly, especially with integrated self-closing systems, to avoid injury.
- Product not suitable for children under 3 years, as small parts may be present.
- Ensure that all parts are properly secured during assembly and use.
